Sir:

Applicant hereby petitions the United States Patent and Trademark Office to accept the papers submitted herewith for completion of the filing requirements in the above identified application.

As detailed in the attached declaration from Attorney Sheila R. Kirschenbaum, in-house counsel for Applicants Downes and Evans, a copy of the application as filed and the formal papers for signature were separately provided for signature to Attorney Thomas Fitting, the legal representative for inventors Robert Hughes, K.C. Nicolau and Anthony J. Roecker. However, in a letter dated April 6, 2004, while acknowledging receipt of the letter dated January 29, 2004, from The Salk Institute for Biological Studies, Dr. Fitting advised that the Declaration for Patent Application would not be signed by the inventors. Thus, in spite of Applicants' repeated request for return of the executed documents, no reply has been received from any of inventors Robert Hughes, K.C. Nicolau and Anthony J. Roecker.
